CULTURAL ENRICHMENT

On October 16, 2021, Alpha Quest mentees participated in a field trip to the Du Sable Museum of African American History. Mentors engaged with youth in providing a thorough understanding of the importance of cultural awareness and African American history as it relates to their personal growth, development and the structure of American society past and present.

LEADERSHIP DEVELOPMENT

BOYS TO MEN

As black communities continue to struggle with the upsurge in youth violence, increasing homicide rates and declining academic achievement amongst young African American males, it is of great importance to remember that we as men of Alpha Phi Alpha Fraternity, Inc. have a responsibility to lead and provide our young men with the necessary knowledge, skills and abilities needed to navigate the social challenges they current face and the obstacles that await them on their journey to become productive African American leaders.

On November 27, 2021 mentors/role models engaged youth in a variety of discussions on topics of sex education, academic achievement, relationships and more. Such engagement is designed to teach the importance of integrity, respect and accountability. Characteristics and tools necessary in making the transition from boys to men.

For nearly two years the Rho Zeta Lambda chapter book club has provided an outlet for brothers to continue to engage in fellowship and brotherhood amid the social disconnection brought about by the pandemic crisis we continue to encounter.

As the book club continues to grow, brothers are encouraged to participate and contribute to a fun social component of our chapter that has the potential to be around for a long time.
